ACADEMIC YEAR:	20 <input type="text"/> -20 <input type="text"/>	Date of submission of this report:	<input type="text"/>
----------------	--	------------------------------------	----------------------

DATA OF THE STAFF MEMBER:

Name (without Surname):	<input type="text"/>
Home University:	University of Alcalá
Host University:	<input type="text"/>
Faculty/Department in Host:	<input type="text"/>
Host teacher/staff name:	<input type="text"/>

Global estimation of the international exchange experience.

Please describe the activities that you have carried out:

For Teaching mobilities: dates, times, location and general contents of your teaching activity (minimum 8 hours).

For Training mobilities: dates, times, location and general contents of your training activity.

For both types: Any other type of collaboration activities realized with the host staff.

Which was your accommodation in the host city? What price? Please comment the positive and negative aspects of that accommodation.

Please outline the most valuable takeaways from your mobility week (in terms of content, prospects for further cooperation, valuable contacts established, etc.).

What are the possible areas where cooperation could continue in the future? Please mention concrete ideas/suggestions (for instance, new projects, new courses, common programmes, staff weeks, etc.). Please be specific, as this information will allow us to follow up your suggested activities and offer support for their possible implementation (at the university level, within Erasmus + project framework, etc.).

When you come back to your home university, how will you disseminate the results obtained in your mobility? With whom will you share them?

Will this mobility experience affect or modify in any way your normal work when you come back to your home university?
How?

Should you have any other reflections, practical tips or content related suggestions regarding the experience you had during the staff mobility week, please share with us.

This document has the purpose of informing future exchange staff of this KA171 project and may be published in UAH website. Once filled in, send this document as attached file by email to ka171@uah.es.
